

Team Involvement in Demonstration

Date	03 October 2026
Team ID	SWTID-2026-8726
Project Name	Auto Ticket Classification using FLOW DESIGNER
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the Auto Ticket Classification using FLOW DESIGNER project demonstration. Responsibilities are distributed across project introduction, architecture, Flow Designer workflow, live feature demonstration, testing and conclusion/Q&A.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1		Project Introduction	Introduction & Problem Statement	Explains the manual ticket-triage problem, project objective and purpose.	Active
2		Technical Presenter	Solution Overview & Architecture	Explains ServiceNow architecture, Flow Designer trigger, content evaluation and decision flow.	Active
3		Workflow Presenter	Flow Designer Configuration	Demonstrates Record Created trigger, conditions, classification, priority and routing logic.	Active
4		Live Demo Presenter	Live Feature Demonstration	Creates a sample ticket and demonstrates automatic classification, priority and assignment-group routing.	Active
5		Testing Presenter	Fallback & Testing Results	Demonstrates unmatched-ticket fallback and explains functional, performance and UAT results.	Active
6		Conclusion / Q&A Presenter	Conclusion & Q&A	Summarizes benefits, limitations and future enhancements and handles evaluator questions.	Active

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	To be filled by the project team.
Overall Team Coordination Rating (1-5)	To be filled after the demonstration.
Any issues during demo	Possible issues include ServiceNow access, workflow execution delay, incorrect test data or routing-rule mismatch.
How issues were resolved	Verify Flow Designer execution, review configured conditions, correct test data/routing rules and repeat the affected demonstration step.

Note: The uploaded sample provides six member rows but does not provide team-member names. Therefore, member names and the final coordination rating are intentionally left for the team to enter.
